Jason Wilczak

AVP of Software Engineering at Travelers & Freelance Software
Engineer
Broad Brook, Connecticut, United States

Summary

Hardworking, self-driven, deterministic individual always looking for
a challenge. I am a software engineer with the thirst for knowledge
and a heavy desire to learn the latest technologies. My passion
lays with developing new applications and solutions with emerging
technologies. That being said, I sincerely hope to be able to work on
a game at some point in my career.

Experience

Travelers
7 years 1 month

Assistant Vice President - Software Engineering
April 2023 - Present (1 year 1 month)
Connecticut, United States

As an AVP of Software Engineering, I run the API Platform circle and the
Software Engineering Chapter for our Organizational Unit.

Senior Director of Software Engineering
September 2021 - Present (2 years 8 months)
Hartford, Connecticut, United States

I am now responsible for the API Strategy of Travelers. My circle is tasked
with paving the direction of API development and technology for the future
of the company. Our goal is to find the right balance of API standards and
governance for all engineers leveraging AWS and MuleSoft.

In addition to my daily circle lead focus, I also manage the TLDP program and
support the Engineering Chapter for our business group. I believe building a
solid engineering culture needs to be the foundation of any company looking to
remain competitive in the digital landscape.

Lead Software Engineer
April 2017 - November 2021 (4 years 8 months)
Hartford, Connecticut

Lead Software Engineer on the Customer Access and Identity portfolio. Technologies used include: C#, JavaScript, React, HTML5/CSS3, ASP.NET MVC, .NET Core, WebAPI, WCF, SQL Server, NodeJS, Express, Mongo, AWS, PCF, UCD, Jenkins, SVN, Github, Visual Studio (full and Code), Okta, MuleSoft, OpenShift, Rally, and Confluence

Also responsible for Engineering culture activities around development of engineers, quality of life, onboarding, etc. Ran the first Engineer community of practice for our area and helped pave the foundation for the enterprise community of practice.

Senior Software Engineer
April 2017 - January 2018 (10 months)
Hartford, Connecticut, United States

Senior Software Engineer in charge of the Agent portal for external facing agents. Used C#, Javascript, HTML, CSS, Visual Studio, SQL Server, PCF, IIS, Rally, and Confluence.

ReadyEDI
Software Engineer
January 2018 - April 2023 (5 years 4 months)
Massachusetts, United States

Freelance contract work for ReadyEDI. Responsible for web based solutions leveraging C# MVC and WCF as well as VueJS for the front end. Primary responsibility includes building/maintaining a custom CMS platform built, custom form and input screens, components, workflows and designing the look and feel of the website using Vuetify.

Avanade
Sr Software Developer
March 2013 - March 2017 (4 years 1 month)

Software developer responsible for .NET technologies for various clients and projects. Strong focus in JavaScript and ASP.NET (MVC) skill sets.

KTI
Software Developer
August 2010 - March 2013 (2 years 8 months)
CT, USA

Software Development using C# .Net. Projects have ranged from middleware development using XML schemas to asp.net deeply interactive web applications. The current project is using Silverlight 4 (eventually 5) with

the Prism framework and the MVVM pattern to develop a large scale client application.

Most of my work is involved on the User Interface logistics, not the graphic design work. I also maintain some service side logic and help maintain the databases (SQL Server). When it is time, I also do the application roll-out/installs into the customer environment and provide training and high level support.

technical metal finishing

4 years 8 months

Technical Engineer
October 2006 - August 2010 (3 years 11 months)

Mechanical Engineering with regards to aerospace engine parts.

Machinist
January 2006 - January 2008 (2 years 1 month)
Wallingford, CT

I ran the machines that would handle the surface treatments of the aerospace engine parts.

Education

SetFocus
.Net Certificate, .Net · (2008 - 2009)
